Stockbridge, GA 30281

Dear Mr. Williams,

I hired Gunn Construction and Development for the renovation and design of a new facility for my Mercedes-Benz repair business. It was not a large project by any means, but was always treated as it was their most important project. Rett Gunn and his group of managers and contractors diligently and smoothly worked with through several unforeseen issues that arose during the renovation process. They responded quickly to any requests or changes made by myself mid-construction. The project was completed ahead of schedule and on budget.

Since the completion of this facility I have hired Gunn Construction and Development for a fairly simple storm damage repair and was again impressed with Rett's attention level and response time. Knowing that I didn't have to worry about getting my building back together allowed the business to get back on track almost immediately. Because of my experiences with Rett Gunn and Gunn Construction, any future construction project I endeavor to tackle will include them.

Feel free to call if you would like to further discuss any aspect of the project.

Sincerely,

R. Matthew Purselle
